

# **Academic Program for Master Degree Candidates in Environmental Science and Engineering**

## **Program overview**

This program will ensure that students become experts in the field of environmental science and engineering. The first year is almost entirely devoted to expanding one's knowledge of the field. The second-year focuses on deepening the understanding of the field and the topic for the dissertation is chosen and the associated research plan is written. In the third year, the student will finish his dissertation and after defending, he or she will be awarded the degree of Master of Science in Environmental Science and Engineering.

## **Aim of the program**

The program aims to educate the next generation of environmental science and engineering talent to be able to compete with their peers in the global job market. Through extensive training and research practise, the student will graduate and hold the Master's degree, enabling him or her to work in jobs related to environmental management and monitoring in government environmental protection departments, environmental technique development and pollution control work in environmental protection organizations, and teaching or research work in a college or university.

## **When and how to apply**

Applicants can apply starting from January 1<sup>st</sup>, 2023 till May 31<sup>st</sup>, 2023. For more information on the documents needed and the application procedure, please visit: <http://www.istudy.sdu.edu.cn>.

## **Application for financial support**

There are possibilities for getting a scholarship either by the China Scholarship Council (CSC), the local government or through Shandong University. For more information on CSC scholarships, please visit: <http://www.campuschina.org/>. For more information on local government or university scholarships, please visit: <http://www.istudy.sdu.edu.cn>.
